

MACH37 Cyber Accelerator Opens Applications for Spring 2018 Session
Spring 2018 Cohort Session to Begin on March 13th

October 10, 2017 (HERNDON, Va.) – The MACH37 Cyber Accelerator has officially announced it will begin accepting applications from information security product startups and security entrepreneurs for its Spring 2018 (S18) Cohort that begins on March 13th. The MACH37 program consists of an intense 90-day program in which the selected startups are coached in all aspects of creating a successful and sustainable business.

MACH37 encourages entrepreneurs with emerging products and companies to apply for the S18 Cohort, which will be limited to 8 companies. The program is open to startups from any geography whose founders are ready to immerse themselves in a mentorship program designed to produce the next generation of leading security product companies. The program brings together domain experts, successful security entrepreneurs, buyers, and investors familiar with the security market into a platform that supports the rapid launch of next generation security technologies.

Upon acceptance into the program, participants receive a \$50,000 investment to develop and launch their ideas into the market. MACH37 companies receive ongoing access to the MACH37 Stars Mentors Network and will have the support of our network throughout the life of their enterprise.

On September 28th, the Fall 2017 (F17) Cohort session kicked off at the inaugural Meet the Cohort event which featured introductions to the six companies in the new class. The Fall 2017 session will culminate on December 5th at the F17 Demo Day.

MACH37 is looking for candidates who:

- Are building a disruptive information security technology product
- Are delivering foundational security capabilities that enable entirely new products or markets
- Have the will and endurance to turn their labor into commercial success
- Have ideally built a team of 2-4 co-founders
- Need help with startup capital, introductions, and navigating pitfalls
- Are seeking rapid growth through venture capital
- Are willing to be in Virginia for the entire 90-day program and commit to the venture full-time

To apply, visit www.mach37.com/apply and fill out the online application. MACH37 accepts rolling submissions but participants are highly encouraged to apply by February 16th to be considered for the Spring 2018 Cohort.

About MACH37™, www.mach37.com

MACH37™ is the premier accelerator for information security entrepreneurs and startups. We go beyond the traditional model of typical business accelerators by bringing our innovators focused mentorship and support from our extensive network of visionaries, practitioners, and successful entrepreneurs in security.

Our Spring and Fall sessions are designed to propel graduating companies into the marketplace, equipped with the skills to grow and compete for funding and market share. MACH37™ was launched in 2013 by the Center for Innovative Technology, in Herndon, Virginia.
